## Program Itinerary

- I. Introduction/Accreditation Statement/Pre-Activity Survey
- II. Instruction and discussion
- III. Post-Activity Survey/Review Correct Answers
- IV. Course Evaluation and Close

## Speakers, Topics and Learning Objectives

**Speaker:** Yijun Chen, MD, Associate Clinical Professor, Metabolic and bariatric surgery, David Geffen School of Medicine at UCLA

**Title:** Updates on Obesity Treatment

### Learning Objective:

- Explain recent developments in obesity treatment, including emerging pharmacologic therapies and updated clinical practice approaches.

**Speaker:** Yun Liu, MD, PhD, Cornea and Refractive Surgery Specialist | No current institutional affiliation

**Title:** Cataract Surgery in 2026: Beyond "clear vision" - Modern Management and Strategic IOL selection

### Learning Objectives:

- Describe the clinical indicators that suggest when a patient may benefit from cataract surgery.
- Explain how modern management of cataract surgery and careful IOL selection affect a patient's lifestyle and improve their quality of life.

**Speaker:** Gang Li, MD, PhD, QME/AME, Cofounder, Pain & Injury Institute, Medical Director, Boomerang Healthcare Campbell Center, & Vice President, World Association of Chinese Doctors

**Title:** Prevention and Management of Neck and Back Pain

### Learning Objectives:

- Describe the appropriate posture for neck and low back during standing and sitting.
- Summarize the common causes of neck and low back pain.
- List the standard treatment protocols for neck and low back pain, respectively.

**Speaker:** Xuan Huang, MD, PhD, CEO & Medical Director, JadeWaves MedSpa and Wellness Center

**Title:** Skin as a Systemic Longevity Organ - Biological Foundations of Skincare

### Learning Objectives:

- Describe the skin as a multisystem organ.
- Recognize the role of skin-derived inflammaging and barrier dysfunction in contributing to risk of systemic disease.
- Evaluate evidence that skin aging is a modifiable driver of systemic aging.
- Recognizing the skin as a potential therapeutic target in aging medicine.
